Web Designer, Indian Railways (South Central Railway)	Mar 2021 - May 2021

PROJECTS	
DBMS mini Project - Full Stack Web Development	Apr 2021 - Apr 2021
In this project, I created a library management web page from which books can be issued. The web page updates the database on backend with details of books issued and the person who issued them	
Train Simulator - Game Development	Jan 2021 - Present
In the simulator, for a given train you can change parameters like number of bogeys your train has and what type they are just for visual representation. And also you can lay tracks with or without junctions and crossovers and move the train on it. And also choose to be a passenger in the train. The trains responds to signals, Therefore it also stops at stations.
